  - The Halifax County Prescription Discount Card provides an average savings of 24 percent off the pharmacy's regular retail price. Savings will vary by medication and pharmacy.
- **Will I always receive the lowest price?**
  - Yes. You will receive the best price available to you through this program at the pharmacy. On occasion, pharmacies will price a particular medication lower than the discount price provided by the card. If that occurs, you will receive the lower price.
- **Can I use the card for pet prescriptions?**
  - Yes, if your pet has been prescribed a medication that is also used to treat a human condition, you may receive a discount on the medication by taking your pets prescription to a participating pharmacy.

## FAQs (cont.)

---

- **Can I use my prescription discount card with my current insurance benefit to reduce my costs?**
  - Your card cannot be used in conjunction with insurance. However, you are able to use your card to purchase prescriptions that are not covered by these plans. ***Including prescriptions not covered by a Medicare Part D Plan.***
  
- **How is this prescription discount program different from traditional prescription insurance?**
  - **This program is not insurance**; it is a prescription discount program. The card provides immediate discounts at the pharmacy. Upon presenting your card to the pharmacist, you will pay the lower of a discounted price or the pharmacy's regular retail price. There are no claim forms to fill out and no limit to the number of times you can use the card. These discounts are available only at participating retail pharmacies or through the Caremark Mail Service Pharmacy.
